NLP Taster Day 1 Day Workshop

Are you curious about NLP (Neuro Linguistic Programming) and how people worldwide are using NLP techniques to create fast and long lasting change?

What you may not know - yet - is how NLP techniques are highly effective in any organisation or business in many different contexts: management, leadership, organisational development, sales, training, presentations, meetings, team bonding, in fact anywhere there is a desire to move towards excellence, and away from the average or ordinary.

If there was a way you could:

- Turbo-charge your organisation, your team, yourself!
- Gain a new perspective on current challenges in your business or in your life;
- Improve your management and leadership skills;
- Enhance and improve your client and customer relationships;
- See fast, real, positive and long lasting effects on your bottom line;
- Stimulate and motivate yourself and your colleagues to achieve even greater performance and higher levels of job satisfaction;
- Move your business from “average” or “satisfactory” to “**extraordinary**”;
- Learn and use powerful techniques for business success and organisational change.....

... you would at least want to hear about it, wouldn't you?

NLP skills and techniques are the most effective that exist today and our purpose is to make them available to you to improve your management and leadership skills, communication skills, income, career - and any other areas of your life in which you wish to apply them.

This 1 day Workshop will give you the sense and the experience of how NLP can enhance your existing skills to help you achieve all the above ... and more. You will leave at the end of the day with some new tools in your toolbox, hopefully one or more 'Eureka!' moments, and a different perspective on life and work.

You will have ample opportunity to ask questions about how you can apply NLP to your work and life, and how others are using NLP right now to help them solve problems, create outstanding outcomes, and reach goals more quickly and easily.
